

# Quotation for Database System with User Interface

## Project Overview

We are pleased to submit this quotation for the design, development, and implementation of a database system with a user-friendly interface as requested by you.

## Scope of Work

The scope of this project includes:

1. Design and development of a robust and scalable database system to store and manage biometric and health data.
2. Design and development of a user-friendly interface to interact with the database system, including features such as e.g. data entry, reporting, dashboard, etc.
3. Deployment of the database system and UI on cloud or on-premise.
4. Testing and quality assurance to ensure the system meets the requirements
5. Documentation and training for the client's team

## Requirements

Based on our understanding of the client's requirements, we will develop a database system with the following features:

- User authentication, data validation, reporting, data querying etc.
- The system will be designed to meet scalability, and all security requirements

## Deliverables

The deliverables for this project include:

- A fully functional database system with a user-friendly interface
- Complete documentation of the system, including user manuals and technical guides
- Training and support for the client's team

## Assumptions and Dependencies

Our quotation is based on the following assumptions and dependencies:

- ❖ Access to existing systems and data, availability of resources, funds, etc.

## Timeline

We estimate that the project will take approximately 6 weeks to complete, with the following milestones:

1. completion of database design
2. UI development,
3. Testing

## Pricing

Our quotation for this project is as follows:

- Development of the database system and UI: \$500
- Deployment onto the cloud and testing: \$60
- Documentation and training: \$40
- Total project cost: \$600

## Payment Terms

We accept payment in instalments with an initial payment of 60% of the development fee.

## Acceptance Criteria

The project will be considered complete when the following criteria are met:

- ❖ The database system and UI are fully functional and meet the requirements
- ❖ The system has been tested and validated by the client
- ❖ The client has received adequate training and documentation

## Warranty and Support

We will provide technical support and further feature development for 5 months.

## Acceptance

Please indicate your acceptance of this quotation by signing and returning a copy of this document to us in two days after receipt..

Thank you for considering our quotation. We look forward to the opportunity to work with you.
